MAC's Janitorial Services
1273 North Church Street
Moorestown, NJ 08057

To Whom It May Concern:

It is my pleasure to recommend MAC's Janitorial Services.

During my tenure as a Senior leader with Mastery Charter Schools serving the Philadelphia, PA and Camden, NJ markets our organization partnered with MAC's Janitorial Services beginning in 2011. While I have since moved on from that role, my confidence in MAC's remains, and I write this recommendation entirely on my own behalf.

Charter school environments demand a great deal. The cleanliness and upkeep of a building directly reflects on the community it serves, and MAC's consistently rose to meet that standard. Their team demonstrated reliability, punctuality, and efficiency year after year in keeping Mastery buildings looking their best.

They also proved their value during challenging times. When the demands of a post-pandemic environment required rapid pivots and expanded services, MAC's responded with professionalism and without hesitation. Their depth of experience was evident in every interaction, and ultimately benefited the students and families we were there to serve.

I left that organization with full confidence in MAC's Janitorial Services, and that confidence remains. I would not hesitate to work with them again, and I trust your experience will be equally positive.

Please feel free to reach out if you have any questions or would like to speak further.

Sincerely,

Omar Robinson
